"Convergence, Divergence and the Complex Nature of Environmental Problems. Editorial"

Brook, Isis

Brook, Isis. "Convergence, Divergence and the Complex Nature of Environmental Problems. Editorial." *Environmental Values* 17, no. 1, (2008): 1-3. doi:10.3197/096327108X271905 .

Environmental thought could be characterised by the constant pressure to solve real problems while also thinking deeply about the roots of those problems. This has created a diverse field in which discussions and debates range across traditional disciplines and draw upon many different approaches and ways of thinking. (...) As always in these pages there is a rich mixture of views and approaches and although each paper has distinct qualities there is also a lot to be gained from reading them together.
