"The Politics of Sustainability: Contemporary Art and Ecology"

Demos, T. J.

Demos, T. J. "The Politics of Sustainability: Contemporary Art and Ecology." In *Radical Nature: Art and Architecture for a Changing Planet 1969–2009*, published in conjunction with the exhibition of the same name, shown at the Barbican Art Gallery, edited by Francesco Manacorda, 16–30. London: Barbican Art Gallery, 2009.

In this essay, which was published in the catalogue accompanying the Barbican art gallery's *Radical Nature* exhibition in 2009, T. J. Demos, reader in modern and contemporary art at University College London, provides a bracing overview of how relationships between contemporary art, ecology and concepts of sustainability have evolved over the last fifty years.
