Death in the Everglades: The Murder of Guy Bradley, America’s First Martyr to Environmentalism

McIver, Stuart B.
Death in the Everglades chronicles the demise of one of 20th-century Florida’s most enduring folk heroes. The life and murder of Guy Bradley represents a milestone not only in the saga of the Everglades but also in the broader history of American environmentalism. This fascinating biography of his abbreviated but eventful life is emblematic of the struggle to tame the Florida frontier without destroying it. As Stuart McIver unfolds the story behind this famous but little-known crime, he also provides a window into Florida history during the creation of modern South Florida. — University Press of Florida website.
