Shelton, Napier. *Natural Missouri: Working With the Land*. Columbia: University of Missouri Press, 2005.

Napier Shelton offers a tour of notable natural sites in Missouri through the eyes of the people who work with them. Over a period of three years, he roamed all over the state, visiting such different places as Wilson's Creek National Battlefield, Pomme de Terre Lake, Mark Twain National Forest, the Ozark National Scenic Riverways, Roaring River State Park, Prairie State Park, Ted Shanks Conservation Area, and Mingo National Wildlife Refuge. Along the way he interviewed professional resource managers and naturalists, biologists, interpreters, conservation agents, engineers, farmers, hunters, fishermen, writers, and many others in an effort to gain a perspective that only people who work with the land—for business or for pleasure—can have. — University of Missouri Press website .
