We need a policy of 'preventative engagement': international and individual solidarity and action to meet the challenges of poverty, disease, environmental degradation and conflict in a sustainable and nonviolent way.

— Mikhail S. Gorbachev, Green Cross International Chairman and former Soviet president, in the foreword to State of the World 2005.

Worldwatch Institute, ed. *State of the World 2005: Redefining Global Security*. Washington: Worldwatch Institute, 2005.

In *State of the World 2005: Redefining Global Security*, Worldwatch researchers explore underlying sources of global insecurity including poverty, infectious disease, environmental degradation, and rising competition over oil and other resources. Find out why terrorism is just symptomatic of a far broader set of complex problems that require more than a military response.
