In this issue of *Earth First! Journal*, Animal Liberation Front spokesperson Rob Coronado discusses the difficulties that Earth First!ers face against the US government and the FBI. In addition, Anne Petermann brings good news on the actions against logging in the Green Mountain National Forest, and Judi Bari, Trudy Frisk, Cecelia Ostrow and others contribute various perspectives on ecofeminism.

> The oppression of women is the oldest and most widely accepted form of oppression practiced by humanity. Women's emergence from subordination, so radically upsets the entrenched power structure, a hierarchy based on greed and violence, that many of us have come to see female liberation as an essential element in our fight to save the earth.
