

Multimedia Library Collection: Environmental Film Profiles (videos)

Fuel

Tickell, Josh. *Fuel*. Burbank: Cinema Libre Studio, 2008. HD, 111 min. <https://youtu.be/upTCSSkxlxE>.

Eleven years in the making, *Fuel* is the in-depth personal journey of filmmaker and eco-evangelist Josh Tickell, who takes us on a hip, fast-paced road trip into America's dependence on foreign oil. Combining a history lesson of the US auto and petroleum industries and interviews with a wide range of policy makers, educators, and activists such as Woody Harrelson, Sheryl Crow, Neil Young and Willie Nelson. Animated by powerful graphics, *Fuel* looks into our future offering hope via a wide-range of renewable energy and bio-fuels. (Source: Adapted from the [Official Film Website](#) Press Kit)
