Bringing It Home

Booker, Linda, and Johnson, Blaire. *Bringing It Home*. Pittsboro: Brooke/Green Hope Productions, 2013. HD, 52 min. <https://youtu.be/-hFKrGYvmGo>.

A father's search to find the healthiest building materials leads him to the completion of the nation's first hemp house. Hemp with lime is a non-toxic, energy efficient, mildew, fire and pest resistant building material. The drawback—although research is legal in some states, hemp remains off-limits to almost all U.S. farmers. Industrial hemp is a non-psychoactive plant, grown in 31 other countries that makes thousands of sustainable products and offers solutions for global warming, nutrition, poverty and deforestation. [...] *BRINGING IT HOME* tells the story of hemp: past, present and future and a global industry that includes textiles, building materials, food products, bio-plastics, auto parts and more.
