*Divide in Concord* is a feature-length documentary that follows the entertaining tale of banning bottled water in small town America. In 1775, Concord patriots fired the infamous “shot heard round the world” that began a Revolution and defined a nation. Now a local eighty-four year-old woman has waged another seemingly unwinnable battle. For three years Jean Hill has been trying to rid the town of single-serve plastic bottles of water. Complete with strong opposition from local merchants and the bottled water industry, Jean is once again leading the controversial crusade.
