The Land Beneath Our Feet

Mitman, Gregg and Alchemy Films. *The Land Beneath Our Feet.* Los Angeles: Alchemy Films, 2016. HD, 60 min.

> *The Land Beneath Our Feet* weaves together rare archival footage from a 1926 Harvard expedition to Liberia with the journey of a young Liberian man, uprooted by war, seeking to understand how the past has shaped land conflicts in his country today. This film is an explosive reminder of how large-scale land grabs are transforming livelihoods across the planet and is directed by Sarita Siegel and Gregg Mitman.
