Mendocino Environmental Center Newsletter, Issue 14 (Winter 1993). Environment and Society Portal. Multimedia Library. http://www.environmentandsociety.org/node/8187.

In this issue of *Mendocino Environmental Center Newsletter*, Susan Crane discusses who are the real vandals; Vicki Oldham writes about Clinton's Forest Plan; and Mary Pjerrou brings up the issue of logging companies using new tactics to avoid the Timber Harvest Plan (THP) process.

> But the question remains: who is vandalizing our earth? The lab has released radioactive tritium which, according to John Gofman, former associate director of the lab, has caused 120 cancers in the Livermore area, and 60 cancer deaths.
