Mendocino Environmental Center Newsletter, Issue 22 (Summer 1996). Environment and Society Portal. Multimedia Library. http://www.environmentandsociety.org/node/8192.

This issue calls readers to action to save the Headwaters ancient forest groves from salvage logging. It also includes reports on medical hemp, non-native species arriving with imported logs from Siberia, and the Coho salmon. Dan Hamburg endorses Ralph Nader for US president.

> The proposed Ward Valley dump endangers the Colorado River. The waste would be buried in shallow unlined trenches—a crude technique which is a proven failure. Three separate reports confirm that radioactivity could fold its way to the Colorado River—a major source of drinking and irrigation water for Southern California.
