Mendocino Environmental Center Newsletter, Issue 19 (Spring 1995). Environment and Society Portal. Multimedia Library. http://www.environmentandsociety.org/node/8221.

This issue of *Mendocino Environmental Center Newsletter* covers the Wise Use Movement, Coho salmon, companies of the Global Forest Management Group and "pests" of Russian boreal forests. Gary Ball describes the domination of multinational corporations as the outcome of what was effectively "World War III," with dire consequences for the planet.

> Besides, who could believe a war has come and gone when nary a shot was fired, nary a bomb was dropped? Who could conceive that a world war has been lost when the flags of all the world's countries still fly high and proud? Who could imagine that the Third World War would be done quietly, without fighting, without fanfare of any sort?
