> The Banff-Jasper highway, winding along the base of mountains whose summits cling to the remnants of the Ice Age, is without doubt one of the most scenic drives, if not *the* most scenic, in the world. The grandeur of scenery and the panorama of glittering snow-capped towering mountains is a sight to behold—a veritable Avenue of Giants. All of the spectacular and outstanding scenic spots along the way are described in detail in Miss Williams's book, "The Banff-Jasper Highway", as are The Building of the Mountains, The Native Tribes and Pathfinders. (Text from the book's introduction)

This 1963 edition of M. B. Wiliams's 1948 book is a close replica of her 1920s guides to the highways and trails of the national parks of Canada.
