Whittaker, Catherine, Eveline Dürr, Jonathan Alderman, and Carolin Luiprecht. *Watchful Lives in the U.S.-Mexico Borderlands*. Vol. 4 of *Vigilanzkulturen/Cultures of Vigilance*, edited by Sonderforschungsbereich 1369 Ludwig-Maximilians-Universität München. Berlin and Boston: De Gruyter, 2023.

Watchfulness shapes many Chicanxs' and other People of Color's everyday lives in San Diego. Experiencing racist discrimination can lead to becoming vigilant, which frames their subjectivity. Focusing particularly on Chicanxs, we show how they seek to intervene against structural inequalities and threats in their lives, such as by re-claiming space, consciousness raising, participating in protests, and healing practices. We argue that contestations surrounding belonging create particularly watchful selves and that this is a significant aspect of borderland lifeworlds more broadly. (Source: D e Gruyter)
