> Massive Body Loss was created by Belkıs Sena Top and Zeynep Kozoğlu—a collaboration through TED University Graduate Studio (Architectures of Care) 2023–2024—under the supervision of Prof. Dr. Berin F. Gür and Alper AI. The website is an open-access data-visualization project that documents events that caused massive body loss in and around Turkey in the last century. The project also includes detailed case studies: The Balkan Wars , researched by Belkıs Sena Top, and the Kahramanmaraş Earthquake in Antakya, researched by Zeynep Kozoğlu.
