Massive Body Loss was created by Belkis Sena Top and Zeynep Kozoğlu—a collaboration through TED University Graduate Studio (Architectures of Care) 2023–2024—under the supervision of Prof. Dr. Berin F. Gür and Alper AI. The website is an open-access data-visualization project that documents events that caused massive body loss in and around Turkey in the last century. The project also includes detailed case studies: The [Balkan Wars](#), researched by Belkis Sena Top, and the [Kahramanmaraş Earthquake](#) in Antakya, researched by Zeynep Kozoğlu.
