## POST CARD

Dear Miss W.

This space for writing

Spent a delightful day at Canine recently. Beautiful even in its winter garb. Three so called Cottages are being erected on about the site of the tall trees in the left foreground. The new "sea-wall" or Riprapping is being extended to where the boulders in the left hand corner. The C. P. R. in all its improvements seems to endeavor to keep inviolate the primitive beauty of the place. Don't let Mr. Harmon work too hard. Sincerely J. H. B.

Dear Miss W.

Spent a delightful day at [Lake] Louise recently. Beautiful even in its Winter garb. Three so called Cottages are being erected on about the site of the tall trees in the left foreground. The new "sea-wall" or Riprapping is being extended to where the boulders in the left hand corner.
